

Addition to minutes of 11/8/2018

Science Fair:

Phyllis Colvin has contacted the county re our interest in helping judge in the Science Fair which takes place at the end of January. The county will be sending the applications to do so. The Science Fair. Awards will be given to science projects that have the environmental sciences as a topic, especially dealing with water and are close to our goals and mission statement. A motion and approved to awards in the amount of \$100 each to two high school projects and one in the amount of \$50 to a middle school entry.

Operating Budget:

Gordon said perhaps the alliance should have an operating budget since we are creating teams and these teams would be asking for funds such as the science Fair awards. The HRA has not had had an operating budget in the recent past but there will be further discussion of that in the future as teams are established.
